Jonathan shared an update on the Meltzer/SCAN project, noting it's overall 68% complete and on track for substantial completion by the end of 2025. He also provided an overview of the recently finished renovations of the Mary Graydon Student Center, newly renamed and formerly the Mary Graydon Center.

Looking ahead to summer 2025, Roper and Clark Halls will be renovated with upgraded finishes and new elevators. Asbury, Beeghly, Hurst, and East Quad are currently being evaluated for potential future improvements. Jonathan will keep the Working Group updated on potential projects that emerge from those feasibility studies.
